**Subject:** FW: Request for RAD presentation at 2021 SOT Symposium hosted by CPSC on Organohalogen Flame Retardants

FYI, CPSC is planning a session at SOT in March 2021 and would like a RAD presentation on our work. See below. Please let me know if this is problematic. We'll want to coordinate with CPSC on the phthalates, and they are quite interested in collaborating with us.

Cathy

**Subject:** 2021 SOT Speaker

Hi Cathy,

It was a great pleasure to meet your group last Friday.

As a follow up reminder, CPSC is proposing a 165 minute symposium (2 chairs, 5 speakers) for the 2021 SOT to collect scientific information for the Organohalogen Flame Retardant (OFR) project. Michael Babich will talk about the status of CPSC OFR work. We are so glad that you are able to cover the TSCA flame retardant (FR) and NAM regulatory acceptance topics. Other potential topics/speakers may include flame retardant (FR) state or international regulation, FR toxicity, FR exposure, cumulative risk assessment, class approach, mixture, etc.

Timeline:

1. November 2019 to March 2020, Xinrong will obtain agency cleared abstracts from speakers.
2. March to May 2020, Xinrong will coordinate with speakers and SOT special section (sponsor) to revise proposal.
3. May 2020, SOT deadline to submit 2021 proposal. July 2020, SOT tentative acceptance. September 2020, SOT final acceptance. 3-14 to 3-18-2021, 60<sup>th</sup> SOT, Orlando, FL.

Please let me know if you have any suggestions, questions, or schedule conflicts.

Sincerely,  
Xinrong Chen, PhD, DABT
